Council Approves 7-Member Village Zoning Commission

Granting of Building Permits, V-E Day Plans Occupy Recessed Session

Announced as members of an Antioch zoning commission at a recessed council meeting last Thursday evening are George B. Bartlett, village president; George Wagner, W. I. Scott and James Stearns, trustees, representing the village; W. A. Rosing, representing the First National Bank; Frank Powles, representing the State Bank; and S. Boyer Nelson, representing real estate men of the community.

T. M. Palaske was granted permission to move buildings, remodel, build and modernize dwellings on lots on Chestnut street, Thorn subdivision, in conformity with local building ordinances.

A motion that all taverns and liquor stores within the village limits be closed on V-E Day was adopted and Village Attorney George S. McLaughlin was instructed to draw up an ordinance providing for such action.

Glazed tile and gravel will be furnished for making a driveway to the Regal China plant, it was decided, with the proviso that when it is completed cars are not to park on the roadway.

The meeting was again recessed, to Thursday evening, April 26, at 8 p. m.

South American Buys Two Ravenscroft Cows

Brattleboro, Vt., April 20.—Two registered Holstein-Friesian cows were recently sold by E. H. Ravenscroft, Antioch, Ill., to Manuel Florez Umana, Bogota, Colombia, S. A. The cows are Piebe Vera Bessie Senator 2498287, and Romy Farm Senator 2498286.

Change of ownership for these animals has been officially recorded by the Holstein-Friesian Association of America, Brattleboro, Vt.

The association issued 12,513 registry and transfer certificates to Illinois breeders during 1944.

Additional Shipments
Ravenscroft recently shipped three fine Holstein bulls to Santa Ana, El Salvador, Central America. They were sent from here by express to New Orleans, then by steamer to Puerto Barrios, Guatemala, and then by rail to Santa Ana.

Another shipment, of nine heifers and one bull, is leaving tomorrow for Queretaro, Iro, Mexico.

Canning Sugar Will Be Allotted Starting May 1

Applications for canning sugar may be made in this area commencing May 1, according to information received from Mrs. W. W. Warriner of the Antioch-Lake Villa War Price and Rationing board. Application blanks may be secured at any time in advance of that date, however, it is announced.

Spare Stamp 13 from War Ration Book 4 is to be used for canning sugar. A maximum of 20 pounds will be allotted per person, or 160 pounds to a single family. This is five pounds less than the 1944 maximum. For estimating requirements, the allowance will be made on the basis of one pound of sugar for each four quarts to be canned. Up to five pounds of sugar per person may be set aside for the making of jellies, jams, relishes, catsup, etc., in making the estimates. However, it is pointed out, this comes out of the total amount allowed per person.

Persons who do not wish to secure all of their sugar at one time, and who plan on preserving some early fruits and also some varieties, but who cannot estimate the amount of sugar they will need for the fall canning until later in the season, may file two applications, the latest by Oct. 15. This does not affect the total amount of sugar they may receive.

Applications may be filed by mail with the rationing board in Lake Villa.

News of the Boys in Service

RAYMOND KING IS LIEUTENANT COLONEL

F. Raymond King, son of Mr. and Mrs. Frank R. King, 109 Olive Road, Tucson, Arizona and for many years residents of Antioch, has been promoted to Lieutenant Colonel as the result of his leadership, initiative and ability, and has been given command of the first squadron of the Eighth cavalry regiment, now campaigning on Luzon, according to information received by his parents.

Colonel King, holds the Purple Heart and the Bronze Star, received a civil engineering degree from the University of Arizona in 1939, and entered the service upon graduation. Overseas since June 1943, he participated in the Admiralty Leyte island campaigns. He was in command of the first American troops to invade Samar and on Luzon, he led his Squadron through the hard, bloody street fighting in Manila.

His wife Mrs. Lois King and their son, Raymond, Jr., live in El Paso, Texas.

PFC. FREDERICK E. HAWKINS

RECEIVES CERTIFICATE

Pfc. Frederick E. Hawkins, son of Mr. and Mrs. Frederick O. Hawkins, 689 N. Main Street, has been awarded the certificate of Merit for exceptional service in action with the 12th Armored Division in France.

—V—

Mr. and Mrs. George Magiera of Gurnee, recently had word from their son, Edward, who has been a prisoner in Germany for the past several weeks.

—V—

Sgt. Peter A. Jecivius writes—"I am now in Germany. I finally made it. There isn't much I can say about Germany—only that it is pretty well battered and wrecked. We cannot talk to German civilians. If we are caught doing so, we are fined. Went to Paris on a 60-hour pass. Can hardly wait to get back to the good old U. S. A."

Pvt. Leslie Hanke arrived home from Oreilly hospital, Mo., Friday on a 30-day furlough.

Collector to Mail 9,000 Statements Before May First

More than 9,000 tax statements will be mailed out before May 1 by Antioch Town Tax Collector John Horan. The tax rate for the town of Antioch per \$100 assessed valuation for the year 1944 has been announced by Horan as follows:

Village, \$1.17; town, .47; county, .53; town library, .19; road and bridge, .33; Antioch fire district, .11; Antioch High School District No. 117, 1.20; Fox Lake Fire district, .14; Fox Lake High School No. 124, 1.54; non-high school district No. 122, 1.25.

Grade school districts—No. 9, McHenry county, .99; No. 10, Lotus, 1.30; No. 24, Millburn, 1.08; No. 27, Hickory, 1.09; No. 30, Bean Hill, 1.00; No. 31, Oakland, 1.11; No. 33, Emmons, 1.27; No. 34, Antioch, 2.31; No. 35, Channel Lake, 1.38; No. 36, Grass Lake, .56.

Remittances may be made by mail, Horan announces, and should include 10 cents for check exchange and 3 cents for receipt by mail in that case. Payment in person may be made at the State Bank of Antioch on Monday or Tuesday from 9 a. m. to 4 p. m. or Wednesday from 9 a. m. till 12 noon; at the First National bank Thursday, Friday and Saturday from 9 a. m. till 3 p. m.

Ellsworth Fox Is Injured in Fall on Farm Tuesday

Illnesses, Tractor Accident Bring Other Rescue Squad Calls

Ellsworth ("Bill") Fox, State Line road, is convalescing in St. Therese hospital from injuries received when he fell through a hay chute on his farm Tuesday morning at 5:45 o'clock. He was taken to the hospital by the Antioch-Rescue squad.

Mrs. Emma Bixen, 81, Spafford street, who was spending a few days with her daughter, Mrs. William Lemker, North avenue, was removed to Condell Memorial hospital, Libertyville, Sunday at 5:50 p. m. Mrs. Bixen had been in poor health for some time, but had suddenly taken a turn for the worse.

Mrs. Frank H. Gibbon, the former Sybil Johnson, daughter of Mr. and Mrs. M. P. Johnson, Felter's subdivision, was taken to St. Therese hospital Sunday at 2:25 a. m., but is expected to return home tomorrow. Mrs. Gibbon has been staying in Washington, D. C., with her husband, a gunner's mate second class in the navy, who was attending a navy school and is now scheduled to return to sea duty. Gibbon has been in the navy for about five years, three and one-half of which have been spent on sea duty. Facial injuries suffered by William Yucius 11:25 a. m. Saturday when the crank on a tractor he was attempting to start recoiled and struck him brought another call for the squad. Yucius was taken to St. Therese hospital.

C. Gerber of Lake Villa was removed to the hospital by the squad last Thursday.

County's Waste Paper into "Suits of Armor"

Residents of Lake county can supply enough waste paper for 403,646 "suits of armor" for 105 mm. shells, if they will buckle down and save an average of 10 pounds of newspapers, wrapping paper and boxes a month. The 105's are the big ones that have been helping American forces in their advance toward Berlin and Tokyo.

Last year Americans saved 106½ pounds of waste paper per capita, or enough for about 35 containers each for the 105 mm. shells.

"For each ammunition container or 'paper suit of armor' used to protect the shells from salt water, dents, nicks and corrosive dirt, approximately three pounds of waste paper are required, according to W. J. Wardell, vice president of the American Can company, which is manufacturing millions of the containers. Ammunition container board, one of the principal materials used in making the 'suits of armor,' is made from mixed paper and old corrugated boxes, Wardell said. Another material used is called 'tube and can stock,' which is made from all types of waste paper.

Ft. Sheridan Engineer Addresses Co. Firemen

Capt. R. W. Hildebrand, assistant post engineer at Fort Sheridan, was the speaker at a meeting held by the Lake County Firemen's association Monday evening in Grayslake.

Trevor Community Club Plans Dance on May 19

A dance to be held May 19 is among the coming events on the calendar of the Trevor Community club, of which Walter F. Hagemann is president.

The club is also sponsoring plans for general community improvement, including the naming of the streets in Trevor, a child welfare program and the holding of parties for children.

The organization is at present reported to have a membership of 100.

Marjorie Bright, 20, Succumbs to Pneumonia Friday

Daughter of Former High School Principal Here Dies at St. Charles

Many friends of Mr. and Mrs. L. O. Bright, formerly of Antioch, journeyed to St. Charles, Ill., during the weekend and Monday to express their sympathy upon hearing of the death of the Brights' daughter Marjorie, 20, Friday of pneumonia.

Marjorie had been in poor health for the past several months and had recently returned from the Mayo clinic at Rochester, Minn. However, it had been expected that her health would improve, and it was a shock to all when she was stricken with pneumonia and passed away.

She had attended Antioch Grade school and had been a student at Antioch Township High school for one year when the family moved to Foolsland, Ill., childhood home of both Mr. and Mrs. Bright. L. O. Bright had been principal of the high school here for 17 years. He now has an administrative position at the St. Charles School for Boys.

Marjorie had been employed in a bank at St. Charles prior to her illness.

Following the services at the North Funeral home in St. Charles Monday with the Rev. M. E. Figley, pastor of the St. Charles Methodist church, and the Rev. W. C. Henslee of the Antioch Methodist church in charge, the body was taken to Foolsland for interment.

Rural Telephones Are Increasing in Usage

The Illinois Bell Telephone company has announced that it is ready to resume expansion and improvement of rural telephone service as soon as war conditions permit. Many new devices and methods have been worked out, and the necessary equipment and man power will be put to work as soon as they are available.

At the present time, it is practicable to reach about 20 per cent of the nation's rural homes from existing telephone lines or lines extended at no construction charge to the user. In Illinois Bell territory, based upon their most recent study, 96 per cent can so be reached.

This effort to bring good telephone service to more farmers is not new. There has been steady progress through the years, and rural telephone service today is more highly developed in this country than anywhere else in the world. Rural Bell telephones throughout the country have increased 60 per cent since 1935, or about the same percentage as city telephones. In the territory served by the Illinois Bell Telephone company in the same period, rural telephones have increased over 115 per cent as compared to about a 50 per cent increase in city telephones. In Illinois more than 150,000 rural and farm families have telephones.

The expansion program calls for the use of many types of physical telephone facilities, including the dial system; improved pole-line construction; and the radio telephone. Also, for several years before the war, research and field trials were carried on by the Bell Telephone laboratories and Rural Electrification administration aimed at perfecting a method of sending telephone conversations over power lines.

Some years before the war, a small dial central office system known as "community dial" was designed for use especially in small rural communities. About 110 of such "community dial" exchanges are in operation in Illinois, and more will be installed as soon as they are available after the war.

The telephone companies are studying the possible use of micro-wave radio systems in rural telephone service, especially to reach people in remote places.

A new wire has been developed that will permit poles to be placed farther apart than at present. This wire is much more resistant to high winds, sleet and ice, and will mean fewer interruptions of service for rural subscribers.

Clothing Drive Has Splendid Response

Residents of nearby communities have contributed generously to the clothing drive which opened here Monday and will continue through this week.

Collections are being received at the Antioch Grade school and Marshal Fred Peterson has been out with the village truck to pick up donations from those who wished to turn in clothing but had no way to bring it down town.

All of the clothing received at the grade school so far appears to be usable and practical, and it is believed that very little of it will have to be discarded before it is crated for shipment to the needy in Europe.

Silver Star Is Awarded to Late Lt. Anton Graham

The following letter has been received by Richey V. Graham, of River Forest, Ill., and Channel Lake, from Maj. Gen. J. A. Ulio, adjutant general, Washington, D. C.:

"I have the honor to inform you that, by direction of the President, the Silver Star, and the Bronze Star Medal with two Oak-leaf Clusters, representing two additional awards to your son, First Lieutenant Anton J. Graham, Infantry. The citations are as follows:

SILVER STAR
During the period 1 August 1944 to 3 August 1944, Lieutenant Graham repeatedly distinguished himself by outstanding gallantry in action. On one occasion, he exposed himself to fire from two enemy machine guns and a self-propelled 88mm gun in order to place his men in advantageous positions. On 2 August 1944, his platoon was leading the company in an attack, when they were held up by fire from two machine guns, Lieutenant Graham personally led his men forward, showing them what must be done and how to do it. The next day, again leading the attack designed to capture high ground beyond a draw, his platoon was held up by enemy machine gun fire. He returned across an open field which was subject to heavy machine gun and mortar fire to his radio operator and directed mortar fire until the enemy emplacements were silenced. His disregard for personal safety at all times was an inspiration to the members of his command. Lieutenant Graham was brave and unswerving devotion to duty displayed by this officer reflect the highest credit upon himself and the Armed Forces of the United States.

BRONZE STAR MEDAL AND ONE OAK-LEAF CLUSTER

For exceptionally meritorious conduct in performance of outstanding service on June 19, 1944, against the enemy in *****, and against the enemy in ****, from August 4, 1944 to August 11, 1944.

OAK-LEAF CLUSTER TO BRONZE STAR MEDAL

For heroic achievement in connection with military operations against the enemy in ***, on 12 August 1944.

"The decorations will be forwarded to the Commanding General, Sixth Service Command, Chicago, Illinois, who will select an officer to make the presentation. The officer selected will communicate with you concerning your wishes in the matter.

"May I again express my deepest sympathy to you in your bereavement."

Governor Sets May 1 for "Child Health Day"

The Illinois department of public health is carrying on a campaign for the immunization of children of school age and younger against diphtheria, smallpox and whooping cough. Especial emphasis is being placed on the prevention of whooping cough. The department regards the protection of children against the harmful effects of these diseases as an important advance in the preservation of human resources.

This health campaign is expected to reach its high point on May 1, which has been proclaimed by Governor Dwight H. Green as Child Health Day throughout Illinois.

"Alike in these days of war and in the time of peace and reconstruction to follow, the health of our children and young people is a matter of high public importance," the Governor's proclamation said. "Child Health Day and its purposes deserve the widest possible publicity."

Red Cross Campaign Closes Here; \$1,185 Over Township Quota

The sum of \$3,685 has been turned over by Roman B. Vos, Antioch Township Red Cross campaign chairman, to the North Lake County chapter. This was \$1,185 above the quota set for the township. Vos expressed his appreciation to all who helped with the campaign, and his pleasure over the generous way in which residents of the community responded.

Father of Antioch Physician Dies at Home in Chicago

Dr. Benjamin H. Breakstone, 68, Noted Surgeon, Passes Away

Antioch friends of Dr. and Mrs. Irving L. Breakstone and family joined this week in expressing their sympathy on hearing of the death of Dr. Breakstone's father, the well known surgeon and teacher, Dr. Benjamin H. Breakstone, Monday night of a heart attack at his home, 6914 North Sheridan road, Chicago.

Dr. Benjamin Breakstone, who was 68, had been ill for three days previous to the attack.

The founder of Mt. Sinai hospital, he had been associated for many years with various Chicago medical schools and hospitals.

He was graduated from Rush Medical college in 1899, was attending surgeon at Cook County hospital from 1902 to 1908, served as professor of surgery at Bennett Medical college and was later head of the department of surgery at Chicago Medical school. He was also associated with the Loyola University School of Medicine and the Chicago College of Medicine and Surgery.

Survivors include his wife, Rose; their sons, Dr. Irving L. Breakstone, who has been located in Antioch for the past three years, and Dr. Judah H. Breakstone of Chicago; two daughters Mrs. Blanche Goldberg and Mrs. Annette Davis; four grandchildren, and three brothers, Bernard, Samuel and Isadore.

Funeral services were held Wednesday morning at 11 o'clock in the chapel at 5206 Broadway, Chicago.

Spices Reappear on U. S. Cupboard Shelves

Natural spices are returning to shelves of stores and pantries to cheer up the American cooks who like to add a dash of this or a dash of that for variety.

The spice story involves the favorable progress of the war which has reopened the major world ports to commerce. There have been spices available throughout the war years but many of these have come from pre-war supplies or have been synthetic. The A & P Service for Home-Makers explains that for many months after the start of Nazi U-boat operations and the Jap attack at Pearl Harbor, the usual shipping of Old World and Oriental spice and herb supplies was almost impossible.

Farmers in the United States have their contribution to the wartime supplies. In the first year of the war, growers in Montana, California, Idaho and Washington produced sufficient mustard seed to meet the national demand for three years. Paprika was exclusively a Hungarian product before the war. Now it's produced in Chile and Cuba as well as in Louisiana and California. Michigan, Indiana and New York have been principal sources of peppermint to help replace Japanese supplies.

Proof that the spice map covers most of the world is shown in the listing of ports from which spices and herbs again are flowing into American commerce. Importers are renewing contact with Indian sources of pepper, nutmeg, and mace. The Mediterranean area is ready with cumin, coriander and herbs. Holland, Belgium and Russia have supplies of caraway seed, France is a source of thyme and marjoram, Zanzibar for cloves, Spain for paprika and Madagascar for vanilla.

Nearly all the spices and herbs owe their value to the delicate oils they contain. They deserve careful storage in tight containers, and renewal when they become stale. They can add delightful variety to a Sunday dinner menu of such food as green pea soup, crackers, roast lamb shoulder with minted stuffing, spring salad lightly garnished with paprika, mashed potatoes and gravy, hot rolls, baked apples sprinkled with nutmeg.

Wadsworth Veteran Is Named on Commission

James Simpson, Jr., Wadsworth, former congressman and recently discharged veteran of World War II, has been appointed a member of the Illinois Veterans' Compensation commission.

The commission, made up of former servicemen, state senators and state representatives, has been created and authorized to investigate various plans providing for the payment of compensation by the state to veterans of the present war.

It will report its findings to the general assembly before June 1.

Frank Kennedy, Jr., is a medical patient in St. Therese hospital, Waukegan.

Recently announced changes in the

gasoline rationing regulations: creating a new classification of drivers referred to as "semi-preferred" who will be allowed 825 miles of occupational driving a month will not benefit the great majority of "B" book holders, such as salesmen or persons in other non-preferred occupations, says a bulletin issued by the Chicago Motor club.

"The effect of the change" says the bulletin "is principally to cut down the rations of some drivers in the 'C' classification who have heretofore been entitled to more than 825 miles a month."

oOo

Entering on his forty-second years as an Antioch News subscriber is J. F. Woolner, Route 2. It's folks like J. F. and a lot of other long-time backers of the News who deserve a good bit of the credit for this paper's 69 years of service to the lakes region.

oOo

More than eight thousand machine tools and 1,155 pieces of other production equipment were on sale last week at the state fair grounds, Springfield. The total value of the machinery being disposed of by the reconstruction finance corporation was \$3,462,000. It included lathes, grinders, automatic saw filers, battery rectifiers, arbor presses, woodworking machines and monorail systems. Hundreds of buyers registered for the sale.

oOo

The production of chicks in the commercial hatcheries of Illinois during February totaled 7,007,000, a decrease of about ten percent from that of the same month last year. The demand for hatching eggs is greater than the supply, according to the state and federal departments of agriculture.

"God Reigns," and the Government at Washington Still Lives"

The passing of Franklin Delano Roosevelt with startling suddenness from contemporary status to the bourne of history has probably been in some ways less striking in its psychological effect on the people of this country than on some of our enemies and perhaps some of our allies.

A vital, dominant personality, he has been accorded the final tributes of respect befitting his high office. His fellow citizens have joined in extending to the members of the family sympathy in their bereavement.

Meanwhile, however, at home and abroad, the civilians and servicemen of this nation continue unslackened their efforts, their determination, to bring this war to a triumphant conclusion.

The phrase most often heard in comment on Roosevelt's death has been—"It is too bad he could not have lived a little longer to see the final victory."

To those of our enemies who may have thought that Roosevelt's passing might have an adverse effect on the determination of the American people, that phrase contains a grim warning. No one leader, no matter how magnetic, brilliant or dominant, outweighs in importance the spirit that has motivated this country from its very start. The highest leaders are in turn answerable to the people. This is OUR secret weapon, which, backed by the will and the ability to do things, in the long run is proving more powerful than the terrorism and fanaticism of the Nazis and the Japanese militarists.

Even as in a burial at sea, though dirges sound, the ship of state continues on its way.

Seventh War Bond Drive Is Needed To "Keep 'Em Going"

Treasury Department, Washington

To Weekly Newspaper Publishers:

The weekly newspapers of America have done an outstanding job in supporting the nation's War Bond program. Sponsored advertising in weekly newspapers reached its highest peak in the 6th War Loan Drive with a total of 93,038,610 lines, valued at \$2,658,246.00.

The advance payroll savings drive starts April 9, however, THE FORMAL 7TH WAR LOAN BEGINS MAY 14 AND ENDS JUNE 30. It promises to be the toughest job we have faced to date in our country's war financing program. A quota of seven billion dollars has been set for individuals. This is two billion dollars more from individuals than what was asked for in the 6th Drive. The overall quota this time is 14 billion dollars.

We know that newspapers today have greater problems than ever before. However, our problems here at home are small compared to the sacrifices our boys are making on the many battle fronts throughout the world. When the war in Europe is over we will still have a bitter, tough enemy in Japan, and the fighting materials must continue to be produced and paid for in quantities that stagger one's imagination.

The Treasury is most sincerely appreciative of your excellent cooperation with this vital financing program and we are sure that with your help, the war bond quotas for your community can and will be reached.

Sincerely,

S. George Little

Special Consultant War Finance Division

Spring Headaches

Railroad men are getting a lot of gray hairs these days. Here is an outline of the spring work, or rather

a very small part of it, facing the rails, as summed up by an official of the Association of American Railroads:

"The coal mine situation presages an exceedingly heavy demand for coal movement to get the largest possible amount of coal above the ground. The grain situation continues unusually difficult. There is still much wheat held on farms, both in closed and open storage, from last year's record-breaking crop. There is also the greatest corn crop in history to be moved, including much moist soft corn. In the East, there are now millions of bushels of wheat stored in lake vessels in the harbors at the foot of the Lakes. This wheat must be moved out before the opening of the navigation season on the Lakes to avoid delaying these ore and coal boats going into their regular and proper service when the Lakes open. This movement, it is anticipated, will call for an average of 500 box cars per day until the Lakes open."

The railroads have other headaches this spring too. Cars are gradually wearing out from lack of time, men and materials to keep them up. The War Production Board has cut the second quarter allotment of carbon steel for the railroads by approximately half a million tons. The 600,000 tons requested for replacement rail has been cut to 417,000 tons. The request for steel for freight cars has been cut from 250,000 tons, equivalent to about 13,800 cars, to 135,000 tons, which would make about 7,500 cars.

And of course the manpower problem of the railroads is the same as elsewhere—very tough and getting tougher.

Railroad men have many headaches this fourth spring of war, but they are still getting the job done, for which the entire nation can be thankful.

* * *

Folly Brought Home

Practically everyone is in the habit of blaming the war exclusively for the dangerous growth of government control over the people. The plain fact is that the country was headed for such control long before war started. The war did no more than greatly speed up the trend.

The underlying cause of attempts to freeze prices, wages and other costs, can be described in four words—government spending beyond income. For years the people have been warned of what this kind of spending was leading to. War has brought home the folly of annual government deficits without limit, in a way that will be remembered for many generations.

The war will not end the "emergency" of borrowed money. That is why some people who fear the consequences of excessive government borrowing, are turning to increasingly dictatorial government, in the hope of escaping the inevitable price of unlimited government borrowing.

It is a vicious circle—the more the government borrows, the more it must control. The only winners will be those who want to see American representative government and the freedom of the people destroyed. The only ones who can break the circle are the people themselves, by revolting against both peacetime borrowing and regulations.

E. D. Lenehan, District Supervisor of the War Food administration inspected the lunch room program one day last week and completed its planning.

Pvt. Wallace E. Dobyns, with fifteen other wounded soldiers was

flown from Scotland to New York the first of the week. He contacted his parents, Mr. and Mrs. W. Dobyns, McHenry, late Tuesday evening by phone and again Saturday evening

after he had been air evacuated to Bushnell General hospital at Brigham City, Utah. He expects to be at Bushnell hospital several months, for treatment.

Lt. Donald J. Tyler of Luke field, Phoenix, Ariz. is awaiting operational training on either a P-38 or an A-26 as he is now a full fledged fighter pilot.

THE OLD JUDGE SAYS...

"Judge, remember that place up in the mountains where we went trout fishing last year?"

"I sure do, George. We had a great time up there, didn't we?"

"I'll never forget it. But this will interest you, Judge. I heard just yesterday that the revenue men raided a big still right near there. Guess that's where all that high-priced moonshine we heard about has been coming from."

"Wouldn't be a bit surprised. I saw in the paper the other day where the Government has raided thousands of such stills during the past year."

"Sounds sort of reminiscent, doesn't it, Judge?"

"Exactly and it's not hard to figure out. As soon as the distillers stopped making whiskey and devoted their entire facilities to the production of industrial alcohol for the Government... the racketeers muscled in again."

"I hate to think of how that might have spread, Judge, if the Government hadn't found it possible, without interfering with our war effort in any way, to permit a short resumption of legal whiskey production recently."

*Plans to extend
and improve
farm telephone service*

Farm telephone service is more highly developed in this country than anywhere else in the world. In the territory served by Illinois Bell, rural and farm telephones have increased more than 115% in the last ten years as compared to an increase of about 50% in city telephones.

Our first job is to win the war, but the telephone companies are preparing a wide-range program to further extend and improve service to farm families.

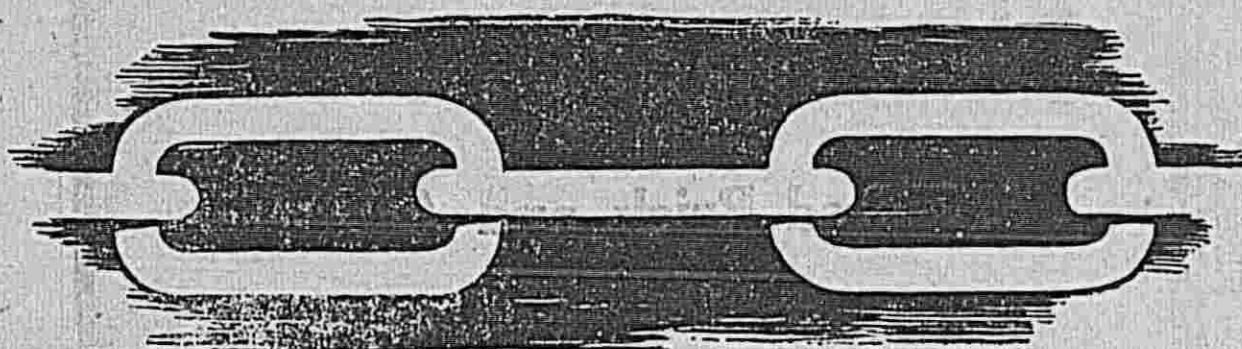

Important new devices and methods were worked out, and others were being developed, before war demands called a halt to the program. Just as soon as conditions permit, the necessary manpower and equipment will again be put to work on the job. The goal is to bring the telephone to the greatest possible number of farm families.

Ruth McGlynn and Milwaukee Man Are United in Marriage

Spring foliage and flowers decorated the Antioch Methodist church for the ceremony which united in marriage Miss Ruth Marie McGlynn, daughter of Mrs. Vivian McGlynn, Channel Lake, and Emory Calvin Trussell, son of Mr. and Mrs. Emory A. Trussell of Milwaukee, Wis., Friday. The Rev. Warren C. Henslee presided at the service.

The bride wore white satin, with a long veil which was caught at the head with an embroidery of seed pearls, and carried white carnations, stock and snapdragon.

Her sisters Margaret and Barbara, who attended her as maid of honor and junior bridesmaid, were in floor-length gowns of chiffon, of white and blue, respectively, and had harmonizing bouquets of spring flowers.

Daniel Paulson, brother-in-law of the bride, acted as best man and Richard Rosinski was groomsmen. A reception for 60 guests was held in the Vernon Rogers home at Channel Lake.

After a short honeymoon trip, Mr. and Mrs. Trussell will be at home to their friends at 3112 North Bartlett avenue, Milwaukee.

The bride is a graduate of Antioch Township High school. The bridegroom, who was graduated from Shorewood High school in Milwaukee, has been employed in the Kempf drug store in that city.

SILVER TEA IS ATTENDED BY 50

More than 50 members and guests of Wesley circle attended a "silver tea" held in the home of Mrs. Irving L. Breakstone last Wednesday afternoon.

A talk, "My Interpretation of Modern Times," by Miss May Hartley; a group of musical readings by Mrs. Alice Freeman, who played her own accompaniments, and piano solos by Miss Imona Welker comprised the program.

Mrs. W. C. Henslee and Mrs. Clara Westlake poured.

Members of the committee included Mmes. George Good, chairman, I. L. Breakstone, Hans von Holwede, M. C. Cain, Einar Petersen, Fred Petersen, Floyd Horton, H. H. Perry and Arthur Laursen.

ANNOUNCE 4-H CLUB LEADERS' SCHOOLS

A 4-H Leaders' Clothing school will be held Monday, April 30, from 10 a. m. to 3 p. m., it is announced by Mrs. Helen Volk, Lake county home advisor and Food Leaders' school Monday, May 14, from 1 to 4 p. m. Information may be secured from the Home Bureau office, telephone Grayslake 6611.

Thirty-eight leaders, representing 26 home economics clubs, met in the Home Bureau office April 18 to hear a discussion led by Mrs. Elsie Rose Butler, district 4-H club advisor, on the organization of their clubs and the new projects for this year.

LEGION AUXILIARY IS ORGANIZED AT ZION

The organization of an auxiliary to Zion-Benton American Legion post last Tuesday evening in Zion was attended by John L. Horan, senior vice-commander of the Tenth District Legion organization, and Mrs. Horan; Commander F. A. (Al) Swenson of the Antioch post and Mrs. Swenson; Mrs. Lillian Hand, president of the Antioch auxiliary; Mr. and Mrs. V. J. Keeney, Mr. and Mrs. C. L. Heath.

Mrs. Catherine Stack, national chairman of war activities, installed the officers of the new auxiliary. Charter members were initiated by the Tenth District auxiliary officers. The Antioch auxiliary will meet Friday evening in the home of Mrs. Tillie Miller.

WESLEY CIRCLE TO HOLD MEETING, WED.

The regular monthly business meeting of the Wesley circle will be held Wednesday, May 2 at the home of Mrs. Sam Ries.

"MAYTIME DANCE" PLANS CONTINUE

Charles Pitts' band will play for the "Maytime dance" to be sponsored by the Antioch American Legion post Saturday evening, May 5, in the new Legion home on Ida avenue east of Main street. All proceeds from this dance will be applied toward the final payment on the Legion home.

HOME BUREAU UNIT HAS PLANT EXCHANGE

A plant exchange was a feature of a meeting held by Antioch unit of the Home Bureau Wednesday afternoon in the home of Mrs. Bert Doolittle, with Mrs. Stonus as co-hostess. Mrs. Robert McMann and Mrs. Nellie Brye were received into the membership of the unit.

A talk on cancer control was given by Mrs. Ethel, who also reported on 4-H activities. Mrs. Wells gave a talk on victory gardens.

Refreshments were served. Mr. and Mrs. George Kuhaup, returned home Thursday from Ft. Lauderdale, Fla. where they have spent the past four months.

Library News

Two new historical novels have been received at the library. "Captain from Castille" by Samuel Shellabarger is a swashbuckling tale from Spain's Golden Age. "The Violent Friends" by Winston Clewes is a novel based on the life of Jonathan Swift and his love for women.

Faith Baldwin's new novel, "Arizona Star," is a panorama of Arizona life and a sensitive interpretation of present day problems. "Wait for the Sun" by Maude McCurdy Welch is an absorbing story of five young people who face life and love without the help of parents.

"Young Men and Machines" by Francis Yates is a vocational guidance book. Besides descriptions of the latest types of machinery, this book looks to the future homes, automobiles, etc. It will be a valuable and interesting guide to the high school boy.

"Abraham Lincoln's World" by Genevieve Foster was presented to the library as a memorial to Mrs. Gretchen Nelson. This book presents an understanding portrait of the world in Lincoln's time, and the story is entertainingly illustrated with pictures and maps.

NEWLY ORGANIZED 4-H CLUB TO MEET

A special meeting of a newly-organized 4-H Girls' club will be held in the Antioch Grade school Saturday. All young girls over 10 years of age who are interested will be welcome to attend, it is stated.

The club was founded at a meeting in the Grade school Monday. Betty Jean McDougall is president; Verna Mae Kufalk, vice-president; Margaret Ann Anderson, secretary and treasurer. Mrs. Ethel M. Anderson is the leader.

The subject for this year will be "Outdoor Meals."

TEACHERS TO HEAR TALK BY CLABAUGH

R. E. Clabaugh, superintendent of schools at Arlington Heights, Ill., and former principal of Antioch Grade school, will be the speaker at a meeting to be held by teachers of North Shore Division No. 2 of the Illinois Educational association Monday evening at Anderson's place, Highway 59. At 6:30 o'clock dinner is to precede Clabaugh's talk on "School Legislation."

JUNIOR CARD PARTY AND DANCE SPONSORED BY WELFARE CHAIRMAN

Channel Lake Community club welfare chairman Mrs. James Runyard and her committee are sponsoring a card party and dance at the school house Friday evening, Apr. 27, for the young people of the community. An admission of 25 cents will be charged. Refreshments will be served. There will be games, cards and dancing for entertainment.

RNA OFFICERS' CLUB WILL MEET TUESDAY

A meeting of the Royal Neighbor Officers' club will be held Tuesday evening in the home of Mrs. Burt Anderson. Mrs. Rose Masopust is to be assisting hostess for the event, at which cards and a luncheon will be enjoyed.

Ten members of the Antioch Eastern Star Past Matrons' club were entertained at the home of Mrs. H. B. Gaston last Thursday evening. Mmes. Sophie Hennings, Jean Ferris, Adah Hachmeister and Myrtle Klass were holders of high score. A luncheon was served afterward. Mrs. Ida Osmond was assistant hostess.

Mr. and Mrs. Sam Ries and daughter Dolly spent Saturday in Milwaukee, and while there visited the W. T. M. J. Broadcasting station and heard the noon hour program.

Mrs. Eugene Cox, who has been spending the winter months in Chicago, has moved out to her summer home at Shady Nook.

Mrs. Heinrich Heine, Grass Lake, has been a medical patient in St. Therese hospital.

Six tables of cards were in play at a party sponsored by the Grade School P. T. A. Monday evening in the schoolhouse. Mrs. Sam Ries was chairman of the committee.

Mrs. H. B. Gaston and Miss Mabel Sayles were dinner guests of Mrs. Hattie Marshall at the Hotel Geneva at Lake Geneva Sunday. They also called at the Delavan Sanatorium, to see Mrs. M. R. Cole of Richmond, who is convalescing from a heart ailment.

Mr. and Mrs. Homer La Plant are entertaining Mrs. La Plant's mother, Mrs. Emily Kral, this week.

Seventy five persons attended the Channel Lake Community club, card party and dance, Tuesday evening at the school house. Cards were played and dancing to Bessie Barnes orchestra was enjoyed.

Electrical Power Is Much Used on Farms

More than 25,000 northern Illinois farms and rural establishments are now using electricity from rural power lines of the Public Service Company of Northern Illinois to help speed wartime food production and ease household tasks, Britton I. Budd, president, said today.

Another 700 farms are adjacent to the utility's electric lines, Budd said, making electricity available to 86.5% of the farms in the 6200 square mile, 16-county, area served by the company. Farm electric customers are being added, he said, wherever applicants can justify their wartime need for electricity under war production board regulations.

During the year ending March 31, farm customers of the company used an average of 2439 kilowatt hours of electricity, an increase of 158 over the 2281 kilowatt hour average of the previous year.

Electric work-saving equipment (much of it homemade) listed by Budd as accounting for the greater wartime power use on northern Illinois farms includes pig and chick brooders; milking machines, milk coolers, and milk stirrers; water warmers; water pumps; feed grinders and mixers; grain elevators; hay hoists; lighting in the farm buildings; hay dryers; barn cleaners; and the usual household appliances such as

refrigerators, ranges, water heaters, washers, freezers, irons, toasters, and radios.

Forestry Is Aided By Wooden Nickels

Timber Growers of South Promote Campaign.

VALDOSTA, GA. — Don't refuse any wooden nickels! Southern forest operators have modernized the ancient gag. The new version is sounder advice, they claim, since in the South every fifth nickel is a wooden nickel—that is, one-fifth of all Southern income derives from Dixie woodlands.

To stress the point, and to publicize the rapid regrowth of harvested lands when protected from fire and managed in accordance with policies adopted by leading industrial forest operators, many thousands of "Wooden Nickels" are being distributed throughout 12 Southern states. The campaign is sponsored by the Forest Farmers, a cooperative organization of independent timber growers with headquarters in Valdosta, Ga.

On one side, the tiny discs read, "Your Own Wooden Nickel—Protect the Forest." On the obverse, the Wooden Nickel says, "In every 25c of all Southern income, 5c is Forest Money."

Distributed with a quiz sheet on the South's forest land, the Wooden Nickels spearhead an information campaign having three main objectives. They are:

1. To emphasize that everyone gets much of his income from forest utilization.
 2. To educate the public to protect the forests, especially from fire.
 3. To show small woodlot owners the benefits of proper development, harvesting and marketing of their forest property.
- In support of these specific aims, the program encourages more desirable public forestry policies, better understanding of the work of state forestry departments, and increased cooperation of farm woodlot owners with county agricultural agents.

Easy Way Found to Keep Eggs Fresh for a Year

ITHACA, N. Y. — A method of preserving eggs at near-henhouse freshness for periods as long as a year—so simple it can be practiced in any kitchen—was announced recently by a Cornell university professor.

Alexis L. Romanoff, professor of poultry husbandry in the New York state college of agriculture at Cornell, said it is necessary only to dip eggs in boiling water for five seconds, air cool them and then store in a refrigerator at the customary 40-degree temperature.

As long as a year after treatment, Romanoff said, the eggs may be served as table eggs.

He explained that the "flash heat treatment" coagulates a thin layer of outer albumen which serves to protect the contents.

Germans' Uniform Trick Proves a Boomerang

WITH BRITISH - AMERICAN TROOPS IN BELGIUM.—The Germans ran into complications in dressing some German troops in American uniforms during the first days of their counteroffensive.

One American on lone patrol was seized by two Germans. But he had heard of Nazis dressed in United States uniforms, and he spoke excellent German. In an exasperated voice he declared: "You fools. Let me go. I am a German on a special mission."

The Germans released him, with apologies. The American sought another Yank to help him, returned and shot one German and captured the other.

U. S.-French Agreement To Assist War Industry

WASHINGTON. — The state department announced recently an agreement with France by which French African trade will be conducted directly with private industry.

All civilian supplies for these areas from the first of this year are to be on a cash basis, the announcement said. France also agreed that after June 30, no French-African civilian imports will be bought through lend-lease.

A system of import licenses will be put into effect by French authorities to keep the trade within shipping limits.

Pipeline for Wine Is Now Employed in France

PARIS. — Wine dealers are using a pipeline to carry wine over the Loire river at Blois. The Germans wrecked the bridge, and a pedestrian gangway will not support trucks. Now trucks discharge the wine on the south side into a pipe emptying into barrels on trucks on the north side.

**Gets Up at 6:30 a. m.
To Pay Election Bet**
KANSAS CITY.—The election may be just a memory to a lot of people, but E. Kemper Carter, vice president of the Carter-Walters Corp. here, is reminded of it daily—at 6:30 a. m. He lost a bet with his wife and the agreement was that the loser had to get up and cook breakfast each day for 30 days.

The Observer . . .

—V—
The long arm of coincidence brought back to us the other week a gas tank lock cap that had been missing since last fall.

To make a lengthy story more of it and worse, Charley Alvers, Sr., of the State Line Service station north of town had dropped into the office to let us know that he and Mrs. A. got back March 21 from spending three months at Coral Gables, Fla.—Migosh, did we forget to put that item into the social col.—and by the way, we understand that Chas. had a VERY enjoyable time at the Fla. beaches, etc.

But continuing, reluctantly, with our narrative, we asked him if he'd ever found that cap, which we thought we'd lost near his place.

He hadn't.
But Russell Lasco, who had walked in during the course of the conversation, spoke up at that point and said, "I wonder if I haven't got it out in my car—Rinear found one and gave it to me."

Well, we still had the key to it, and it was the right one all right.

We don't know what the moral to the whole thing is, but we're still a little surprised about it.

oOo

We see by the daily press items that an association is being pledged in Japan to continue the war against the Anglo-Americans for the next 20 years, or maybe even the next 100. Its members no doubt will derive considerable solace from that good old Anglo-American saying, "The first hundred years are the hardest."

They kind of forgot, though, to ask the other parties to the scrap if the schedule was gonna fit in with their plans. It's going to be disconcerting to the Nips of the future to find out they've been wasting their time fighting a war that was pretty definitely settled 20 or even 100 years earlier . . . and that they're definitely behind the times.

oOo

A three-day course in conservation, attended by sportsmen from various communities throughout Illinois, closed Sunday at the state department of conservation's training school at Lake Villa, Illinois. The sportsmen were selected by the Illinois federation of sportsmen's clubs. The course was designed to acquaint those in attendance with the possibilities of a unified natural resources conservation program.

oOo
Many country churches in Illinois, and some city churches as well, are preparing to observe May 6 as "Rural Life Sunday." In some congregations the observance will consist of special features as a part of the Sunday morning services, while in others all day programs are being planned.

The stated purpose of the day is "to magnify the relation of God and man in food production, and to pray for God's blessing upon human efforts to prepare for a crop."

Pvt. Ralph Lasco, Ft. Bragg, N. Carolina writes—

Dear Editor—I received another of your welcome papers yesterday, and it reminded me that I had not written and thanked you for sending the paper to me. It really is welcome, when you are a long way from home, any news from your home town is welcome.

At the moment I'm in a hospital, have been for the past twelve days as the result of an accident when I had one of my toes smashed. It isn't very serious and I'm getting along fine, and hope to be out of here before very long.

I've had 14 full weeks of training in the Army and I like it very much. I don't think much of this part of North Carolina, it doesn't get much below freezing in the winter, but it feels like it is 50 below. It is nice and warm now, but very dusty and dry. The land is pure sand and when it is dry the dust really raises when we are marching.

Well, the lights are going out so I'll have to close. Thanks again for the paper.

Sincerely,

More Ducks

A bulletin from Ducks Unlimited repeats its preliminary estimate, made last year, of a 1943 population of over 125 million ducks on the great Western Canadian breeding range, which is an increase of 28.7 per cent over 1942. Reports of 957 cooperating observers in the United States indicated that 30 states had more ducks than in 1942. Nine states were reported to have had fewer ducks.

Costa Rica

Basically an agricultural country, the principal industries of Costa Rica are based on agriculture and include: coffee processing, sugar cane grinding, the preparation of cocoa, and the manufacture of wood products. Other Costa Rican industries supply domestic needs with textiles, leather goods and shoes, soap, sweets, cheese, tobacco, candles, starch and furniture.

Many persons prefer to clean their own spark plugs, as a Sunday morning tinkering, using the thickness of a thin dime to gauge the distance between points—This is the wrong thing to do, as there are 6 different settings ranging from 20 thousandths to 40 thousandths in 18 different makes of cars for 1942 alone.

Not knowing the proper setting will cause an endless amount of trouble—let your mechanic do this for you.

SALEM

Mr. and Mrs. Alfred Schmidt and children spent Friday evening in Kenosha.

Mr. and Mrs. Stanley Stoxen of Basset were dinner guests of Mr. and Mrs. Lester Dix and Mrs. A. C. Stoxen on Sunday.

Mrs. Anna Stoxen, Mrs. Natalie Straupe, Mr. Jay Cook and Mr. and Mrs. Lester Dix and daughter, Judith Ann attended the twenty fifth wedding anniversary of Mr. and Mrs. Henry Simes at Hebron Sunday evening.

Mr. and Mrs. Bryon Patrick, Mrs. Clarence King, Mr. and Mrs. Lyle Woodbury, Mrs. Arthur Feldcamp, Mrs. Orville Riggs, Mrs. Fred Stephens, Mrs. Henry Frank and Miss Olive Hope attended Eastern Star at Bristol Wednesday evening.

Mrs. Gertrude Davis and daughter, Kathryn of Bassetts spent the weekend with Mr. and Mrs. Byron Patrick. Donald Imrie of Lake Mills is spending several days with his brother and wife, Mr. and Mrs. Robert Imrie.

Mr. and Mrs. E. C. Cisna of Hammond, Ind., visited with friends here in Salem Sunday.

Mr. and Mrs. James Imrie and son, George of Lake Mills spent Sunday with Mr. and Mrs. Robert Imrie.

Arthur Hartnell, Alfred Schmidt, and Clarence King made a business trip to Madison Monday.

Miss June Hartnell of Madison University spent the weekend with her parents, Mr. and Mrs. E. H. Hartnell.

A \$9,000,000 DIVIDEND

In March, 1935, thousands of Americans invested \$27,000,000 in "Baby Bonds." These Bonds were to mature in ten years.

In March, 1945, this very month, those Bonds have matured. These thousands of Americans will receive the full maturity value of those Bonds—\$36,000,000.

People of foresight, these thousands of Americans. People who recognized a bargain—one which paid \$4 for every \$3 they invested.

But, above all, people with great common sense, who understood that holding their Bonds till the date of maturity would bring them the greatest return on their investment.

These "Baby Bonds" of ten years ago are the same as today's War Bonds.

People are buying War Bonds. Yes—people are buying them today because it is a patriotic duty. But they are also buying them today with an eye to the future.

That future will be best guaranteed by not only buying War Bonds, but by holding them. Your country's interest is best served by buying and holding them, and so is your own interest.

Holding War Bonds you bought yesterday, makes it easier to wage war today. Holding War Bonds, till maturity makes your future a lot more certain tomorrow.

Sincerely,

Henry Morgenthau Jr.

Navy Bares New Aerial War Dog

Privateer, Big Scout Plane, In Production; Can Cover 3,000 Miles of Sea.

WASHINGTON. — The navy has made public some details of a new search plane which is able to range unescorted more than 1,500 miles from its base and can defend itself as well as attack an enemy, according to the Associated Press.

Search planes are the scouts or eyes of the fleet from shore bases. Within the limits of the range of such planes, the enemy has little chance to move undetected and without being attacked.

The new plane's design is based somewhat on that of the Consolidated Vultee B-24 Liberator bomber, but it has been redesigned to such an extent that the navy gave it a new name—the Privateer—to describe its mission.

Has Four Engines.
The Privateer has a fuselage more than 7 feet longer than the Liberator, carries 12 50-caliber guns in 6 turrets, some of which are different from those on the bomber, and can stay aloft 20 hours and fly "well over 3,000 miles." Its top speed is more than 250 miles an hour.

The plane weighs approximately 32 tons at takeoff and is powered by 4 engines. It has a crew of 11.

Its most distinguishing feature is a high single tail, which navy and company officials described as having less drag than the familiar double tail of the Liberator, providing greater stability in flight, and permitting larger cones of fire for top and side guns when firing aft.

Equipment Emphasized.
The plane was described as an almost entirely new one, with the wing being the only major item borrowed from the Liberator. The navy's designation of it is PB4Y-2. It succeeds the PB4Y-1, which was a converted Liberator.

Particular attention has been given to navigation and other equipment. Two of the crew members are assigned to the radio department.

The Privateer is in production at Consolidated's plant in San Diego, Calif.

Woman Leaves \$20,000 to Dog, but Nothing to Son

DETROIT. — A dog named Jack will become heir to an estate valued at approximately \$20,000 and a son will get nothing if the will of Mrs. Margaret Myers is admitted to probate.

Mrs. Myers died last October at 72. The estate includes a home in Detroit, a winter home in Sebring, Fla., an automobile and several thousand dollars in life insurance.

Her will, read in court recently, stipulated that "I bequeath everything to my dog, Jack, and whoever takes care of him at my home shall have rent free." A neighbor, Herbert Kelly, was appointed Jack's custodian.

New Super Grease Made Of Sand Is Discovered

NEW YORK. — Sand has been converted into a new kind of machinery grease in a discovery reported to the American Institute of Electrical Engineers here.

This grease does not harden at 70 below zero and does not melt at 400 above. There has never been a grease or oil like it.

The sand grease is one of the new silicones, an entirely new class of industrial materials. All are based on introducing sand chemically treated, and made to form a synthetic resin.

U. S. and German Doctors Work Together in Trap

WITH AMERICAN TROOPS NEAR WINGEN, FRANCE. — American physicians worked side by side with German doctors tending American and Nazi soldiers for three days in which the Germans were encircled in the little town of Wingen.

The Germans had captured an American first aid station. During the ordeal several hundred American infantrymen also were trapped in the town and technically were prisoners of the Germans.

War Department Cites Peril in Mail to Missing

WASHINGTON. — The war department warned recently that sending letters, through the International Red Cross, to soldiers listed as missing in action may endanger the lives of those soldiers.

A soldier listed as missing in action, the department explained, may have escaped capture by the enemy. But a letter may only serve to notify the enemy that he is still at large in their territory.

Turn Destroyer Escorts Into Speedy Troopships

PHILADELPHIA, PA. — Three destroyer escort ships which battled Nazi U-boats in the Atlantic are being converted here into fast troop transports for use against the Japanese, 4th naval district authorities said. In place of specialized anti-submarine equipment, additional bunks, galleys and davits from which small motorized landing craft will be hung are being installed.

Yesterdays

54 Years Ago
In The Antioch News
April 30, 1891

The roads are drying up, but are still very rough.

At the school meeting last Saturday evening the proposition to build was defeated by a large majority. We believe the tax payers are in favor of building but feel, and justly, that they have a right to know something about the cost of the building.

Miss Addie Schafer has returned from her winter vacation and has a new stock of Spring Millinery which she will be pleased to show the ladies of this community.

On Friday evening, last your reporter was startled by seeing two men at about dark, wending their way wearily toward our village from the west, looking a great deal as though they meant harm to someone or had been doing so somewhere. But upon closer observation we saw one of them carrying a heavy load of something which we could not ascertain owing to the approaching darkness. Drawing very near and getting a close look at them revealed to him two well known Antioch men, who had been on a fishing tour with some of their friends. The young men were none other than George and Will Walter, and they were carrying forty pounds of fish. The days catch was 80 pounds of fish. (The reporter wants to know what become of the other forty pounds of fish?)

34 Years Ago
April 29, 1909

Bids for work totaling half a million dollars to be done at the Illinois naval training station at Lake Bluff, were opened Tuesday by the Navy Department. James Corse, of Racine, Wisconsin, was the lowest bidder for the construction of the officers' houses at the station. Rear Admiral Albert Ross, in charge of the construction at the station, says it will be completed by July 1, 1910.

Four of the Graham brothers sharpshooters, and Harry Dunnill represented Lake County, against marksmen of the Chicago gun club. Chicago won 433 to 430.

Bramen and Edmundson have set the opening day of the Sylvan Beach hotel for Sunday, May 2, if the weather permits expect to have a large crowd on that day.

21 Years Ago
May 1, 1924

Ten-year-old Elizabeth King, the daughter of Mr. and Mrs. E. I. King, was seriously injured Saturday and narrowly escaped with her life when she became frightened by a team and rig and ran into the path of a truck driven by E. J. Gilmore of Bristol.

All prospective ball players who wish to play with the Antioch team for the coming season are requested by Herbert Vos, secretary, to meet at the ball park Sunday.

MILLBURN

"Early cancer is curable but it must be fought with knowledge of competent physicians and surgeons. Fear, ignorance and delay are strong allies of cancer," were facts brought to the members of Millburn Unit of Home Bureau at the April meeting held at the home of Mrs. Max Irving, Friday afternoon, April 20. The lesson was presented by Mrs. Robert Durr and Mrs. Louise Haney who had received the lesson on "Causes and Control of Cancer" at a local leaders training school at Grayslake from Miss Fannie Brooks, of Home Economics Extension Staff of the University of Ill.

Mrs. Ray Ehner gave the minor lesson on "Planning Your Victory Garden" which she had received from Lake County Farm Advisor Ray T. Nicholas at a training school in Grayslake. The Unit voted to give \$5.00 toward magazine subscriptions for patients in Great Lakes hospitals and an offering of \$5.00 was taken for cancer research. Millburn Unit is sponsoring two 4-H Clubs—Millburn Maidens with Mrs. James Cunningham as leader and The Jolly Joes led by Mrs. Ray Ehner with Mrs. Leslie Diedrich as assistant leader in both clubs. Fourteen members and three guests, Mrs. George Olson and Mrs. George Ryckman, Sr., of Waukegan and Mrs. Harold McCord were present, and the latter joined the Unit. Refreshments were served by the hostess. The next meeting will be held at the home of Mrs. Frank Schaar on May 18.

Everyone is invited to attend "Family Night" in the church recreation room Friday evening, April 27. An offering will be taken to help pay for the refreshments. Plan to attend. A pot-luck dinner will be served in the church dining room, Sunday, April 29 following the regular morning service. The new church members will be special guests at this dinner and other families attending are asked to bring sandwiches for the family and a dish to pass. Coffee and dessert will be furnished by the Church Board.

Next Sunday evening the Millburn Young People with other young people of the Congregational Churches of Lake County are invited to the Mundein Church for a worship service to be followed by a social hour. The speaker for the evening is to be Dr. Victor Obenhaus of the Chicago Theological Seminary who will also direct games later in the evening.

The Mylo Club met at the Minto home Thursday evening with Mrs. Wallis Hines and Miss Ruth Minto as hostesses. Mrs. George DeHaan gave a talk on "Table Service and Table Setting". The next meeting will be May 17 when the members of the club will entertain their mothers at a tea in the church dining room.

Mr. and Mrs. H. M. Schmelz of Des Plaines, former residents of Millburn, attended church Sunday morning and were dinner guests at the W. C. Upton home. They were supper guests of Mr. and Mrs. Ralph McGuire and family.

Mrs. J. S. Denman was honored at a surprise birthday dinner at the home of her daughter, Mrs. Earl Kane, Jr., at Diamond Lake on Sunday, April 22. Guests included Mr. and Mrs. W. S. Denman and son, Donald of Waukegan, Mrs. Cora Denman and Mrs. Minnetta Bonner of Grayslake, Mr. and Mrs. Ed. Denman of McHenry and Mr. and Mrs. J. S. Denman and Alice and Margaret.

Mrs. Charles Holdridge of Waukegan and Mrs. Anna Bauman and son, Earl attended memorial services at the Wauconda Federated Church Sunday morning for the late Cpl. Fred Thomas, 21 year old son of Mr. and Mrs. Fred Thomas, who was killed on the German front in February. They were dinner guests at the Thomas home following the memorial services.

Mr. and Mrs. Robert Bohn and daughter, Kathleen, of Waukegan spent Sunday evening at the Kenneth Denman home.

Mrs. Donald Crawford and children of Waukegan were callers at the O. L. Hollenbeck home Saturday evening.

Orville Hairrell is spending a few days on a fishing trip in Wisconsin.

Mrs. Clarence Hairrell and daughters of Zion were weekend guests at the Orville Hairrell home.

Alice Denman, Carol Upton, Patsy Hairrell, Milton Bauman, Robert Den-

man and Elmer Hauser attended the circus at Chicago Stadium Saturday evening.

Mrs. Eric Anderson substituted for the second grade teacher in Wauconda school last week.

A large truck load of clothing was collected for relief work in Europe the past week, and Mrs. Don Holem and Mrs. Thomas Harness are grateful to all the families who contributed so generously.

A group of Ladies Aid members cleaned the church basement Wednesday.

½ block from bus line. \$700.00.

Observer

ITEMS FROM HERE AND THERE
(Pathfinder Magazine)
The nation's sweet tooth will be
temporarily satisfied by an Army re-
lease of a three-month accumulation
of nickel candy bars. Army couldn't
get containers to ship the candy over-
seas.

Nicknamed "stinkometer," an ap-
paratus to test spoilage and freshness
to fish, meat, fruits and vegetables
has been designed by the University
of California.

Sage now on the market has a dif-
ferent flavor from true sage formerly
imported from Yugoslavia. What we
get now comes from Greece, Cyprus,
Spain.

An ever-bearing strawberry, dark,
hardy enough to ship well, has been
developed at the University of Min-
nesota Farm. It thrives in dry regions.

We are indebted to the U. S.
Marine Corps Battle News for the
words to a song that has often been
mentioned in recent magazine and
newspaper articles on events in the
Philippines:

'THE SOLDIER'S SERENADE'
By Captain Earl J. Wilson
(Public Relations Officer, USMC)
LEYTE, Philippine Islands (Delay-
ed)—The favorite song of the Philip-
pine guerrillas is "The Soldier's Sere-
nade," written by a 23-year-old Fili-
pino who fought on Bataan with the
USAF 71st Division. He was cap-
tured and released after a year in
prison.

Because the composer is fighting
again with the guerillas, his name
cannot be told. The words of his song,
still being sung by battered bands of
Filipino patriots in the mountains, are
as follows:

From up the mountains we view
the lowlands,
Those lovely rolling plains which
God has given us;
Thus sadly staring our hearts are
aching,
Wishing and waiting for these dark
days to pass.

We are not bandits, we are not
brigands,
We are just men desirous to be
free;
For though we suffer, and though
we perish,
Sweeter to us is death than slavery.

If the hills could tell a story—
They would speak of our privation,
How we struggled with starvation
On the lonely mountainside;
How with scanty arms and weapons
We defied the haughty Nippons,
How we groaned with cold and sick-
ness,
Everything to us denied.

Yet we laugh at all these hardships,
We can sing away our trouble,
We will carry on the struggle,
Though we perish in the strife;
For we've decided,
And we're united,
To fight for freedom and our way
of life.

From all appearances, this song
bids fair to become the Philippine
"Battle Hymn of the Republic."

For the second time in his life,
Gen. Emilio Aguinaldo is a prisoner
of American soldiers, according to

the Foreign Policy association. More
than 40 years ago Aguinaldo, leader
of the Philippine insurrection, was
captured by Gen. Fred Funston in
Northern Luzon. As a collaborationist
with the Japanese, he is reported
again held in military custody by
Gen. MacArthur until he can be tried
by President Osma's government at
the end of the war.

In the face of a severe shortage of
hired help, Illinois farmers are get-
ting ready to plant more than in ordi-
nary years. This season's planting, to-
gether with wheat sown last fall, is
expected to exceed 20 million acres.
This will be two hundred acres more
than was planted last year, and will
approach the record acreages achiev-
ed during the first World War.

Reports compiled by the Illinois
and U. S. departments of agriculture
indicate a slight decrease in corn
acreage for the state, as compared
with last year, a slight increase in soy-
beans, and a considerable increase in
oats.

LEGAL**Adjudication and Claim Day Notice**
